Your organization has a Microsoft 365 subscription that contains a user named User1. User1 plans to leave your company in two weeks. You need to capture the activity of User1 to identify whether the user is exfiltrating data. Which Microsoft Purview solution should you use?

- A. Communication Compliance
- B. Data Security Posture Management
- C. Insider Risk Management
- D. Data Lifecycle Management

Suggested Answer: C

Community vote distribution

C (100%)

 **fa62dd5** 6 days, 22 hours ago

Selected Answer: C

Correct answer: C. Insider Risk Management

Why (exam-focused):

You need to capture and analyze user activity to detect potential data exfiltration, especially for a departing employee. Microsoft Purview Insider Risk Management is specifically designed to:

Monitor risky user behavior

Detect data exfiltration patterns (downloads, uploads, sharing, emails)

Handle scenarios like employees leaving the organization
