A Salesforce associate tries to create a new user in a sandbox using 'Astro@getcloudy.org' as the username and it fails. What is the problem with creating the 'Astro@getcloudy.org' username?

- A. Salesforce usernames must be unique across all Salesforce orgs and that one is already in use.
- B. Salesforce usernames must include the user's full name and be formatted like an email address.
- C. Salesforce usernames must be formatted like an email address with .com at the end.

Suggested Answer: B

upvoted 3 times

A Salesforce associate is asked to review multiple reports from the current month's folder and bring insight into a meeting. How should the associate locate all the reports in a single location from the Report object?

- A. Click on All Reports and use the search bar
- B. Click on All Folders and use the search bar
- C. Use the Global search bar

Suggested Answer: B

Community vote distribution

B (60%)

A (40%)

🗨️ **sfreesway** 1 year ago

Selected Answer: B

The wording is terrible but B should be correct, the keywords I would pick out are 'Current Month folder' and 'locate all the reports in a single location'

Because its already specifies that the associate should be looking at/for the folder already, you shouldn't just go to the report tab and start searching because you then need to search for EACH report

If everything is in one folder ie the Current Month, then you just need to find the folder and go from there

So B should be the right one

upvoted 2 times

🗨️ **XiaoV587** 1 year ago

Selected Answer: A

A is good. The context is tricky. The real question is: How should the associate locate all the reports in a single location from the Report object?

So one location with all reports should be A

upvoted 1 times

🗨️ **spykidXX** 1 year, 1 month ago

B should be the right answer. The question states that the reports are already in the folder.. so search with folder name.

upvoted 1 times

🗨️ **N_25** 1 year, 1 month ago

I think its A

upvoted 1 times

🗨️ **KamillaToberia** 1 year, 2 months ago

Selected Answer: B

The answer correct is B.

upvoted 1 times

🗨️ **ManojKharkwal** 1 year, 2 months ago

If we consider current month as a folder, then the correct answer is B. User can go to All Folders, then will search for folder name current month using search bar and this once user clicks on this current month folder he can see all reports in single location.

upvoted 1 times

🗨️ **Diksha57** 1 year, 4 months ago

A is correct ans

upvoted 1 times

🗨️ **veenasha** 1 year, 5 months ago

the correct answer is B. Click on All Folders and use the search bar. This approach allows the associate to navigate to the specific folder containing the reports for the current month and access them from a single location.

upvoted 2 times

🗨️ **xk14ud14x** 1 year, 6 months ago

Selected Answer: A

A is correct

upvoted 1 times

  **casduarte** 1 year, 6 months ago

Not sure. It says user wants all reports from a single folder. In that case you can go to All Folders and search for that specific folder, gaining than access to all required reports. In that case B would be correct. What do you think?

upvoted 5 times

A Salesforce associate has received a request to create new users for a group of new employees.
Where can the associate check the number of licenses available to be assigned to the new employees?

- A. Company Information
- B. Salesforce Help
- C. User Management Settings

Suggested Answer: A

Community vote distribution

A (100%)
