Question #: 1

Topic #: 1

[\[All NSE6_FAC-6.4 Questions\]](#)

Examine the screenshot shown in the exhibit.

The screenshot shows the 'Pre-Login Services' configuration page. The 'Account Registration' section is active, with 'Require administrator approval' and 'Account expires after' (set to 8 hours) disabled. 'Use mobile number as username' and 'Place registered users into a group' (set to 'Guest_Portal_Users') are enabled. Under 'Password creation', 'User-defined' is selected. 'Enforce contact verification' is disabled, with 'Email address' selected. Under 'Account delivery options available to the user', 'Email' is selected. In the 'Required field configuration' section, 'First name', 'Last name', and 'Email address' are required, while 'Address', 'City', 'State/Province', 'Country', 'Phone number', 'Mobile number', and 'Custom field 1-3' are not. 'FortiToken Revocation', 'FIDO Revocation', and 'Usage Extension Notifications' are all disabled.

Which two statements regarding the configuration are true? (Choose two.)

- A. Guest users must fill in all the fields on the registration form.
- B. All accounts registered through the guest portal must be validated through email.
- C. All guest accounts created using the account registration feature will be placed under the Guest_Portal_Users group.
- D. Guest user account will expire after eight hours.
